Note: The April 1, 2000 estimates base reflects changes to the Census 2000 population resulting from legal boundary updates as of January 1, 2009, other geographic program changes, and the Count Question Resolution program. All geographic boundaries for the July 1, 2009 population estimates series are defined as of January 1, 2009. The Office of Management and Budget's statistical area definitions for metropolitan and micropolitan statistical areas are those issued by that agency in November 2008 <<http://www.whitehouse.gov/omb/assets/omb/bulletins/fy2009/09-01.pdf>>.

The metropolitan and micropolitan statistical area population estimates are based upon the county estimates. The county estimates methodology is available at: <<http://www.census.gov/popest/topics/methodology/2009-st-co-meth.pdf>>. The metropolitan and micropolitan statistical area population estimates in Puerto Rico are based upon the municipio estimates. The methodology for the municipio estimates is available at: <<http://www.census.gov/popest/topics/methodology/2009-prm-meth.pdf>>.
